This apartment is right in the centre of Deià, at walking distance to the square. You park the car in the street which is allowed for residents and walk the last metres. The property is located on the ground floor of an mallorcan classic townhouse. The interior as outside offers the charme of the typical mallorcan house. The apartment has two nice bedrooms, one bathroom, kitchen and living room with open fire place. For being in the centre it has an amazing good outside space - a little garden where to enjoy the views of the mountains and dine and relax in the sun, plus some nice terraces with an orange grove with water rights. With no doubt this is a very special property in one of the nicest villages in Mallorca.
