Garden:	ca. 40 m2
Bedrooms:	3
Bathrooms:	2 (en suite: 1)
Livingrooms:	1

Just few meters away from the bay of Port de Sóller with its beaches, restaurants and shopping facilities you find this modern stylish house in a row of three. The construction was finished in 2013 and offers now a comfortable and well equipped house. Comfortably you park on the private parking and reach over few steps to the entrance of the middle floor of the house. On this level you find the master bedroom and bathroom en suite. On the lower level there are two bedrooms and one bathroom. Both bedrooms have access out to their own terrace. On the upper floor of the house you find the light and friendly living room with modern open plan kitchen. There belongs a terrace with harbor vies to this level but the real sun deck and area to be for nice dinners is the roof terrace with panoramic views. The house offers no pool but the quick access to the beach compensates perfectly.
