Very interesting investment. This town house is in a very good location on the main shopping street Calle Luna in Sóller. The house was divided into a restaurant over two floors, with an inner courtyard and a large kitchen. On the upper floor there is also a bright apartment with one bedroom, bathroom, small kitchen, terrace and views of the Tramuntana mountains. The house is equipped with central heating. The price is divided into the purchase of the entire property and a compensation payment for the restaurant with all inventory.
